PRODUCT OF INDIA

Welcome to BABANAMAK

Since 1999, BABANAMAK has been committed to delivering pure, natural, and high-quality salt and food products. With decades of experience in manufacturing and processing, we focus on consistency, authenticity, and customer satisfaction. This catalogue presents our carefully sourced and hygienically processed product range, developed to meet the needs of domestic and international markets. We thank you for your trust and look forward to building long-term partnerships based on quality, reliability, and mutual growth.

About us

Our Store

BABANAMAK is a trusted manufacturer of black salt and food products from India, serving the industry since 1999. We are committed to delivering consistent quality, reliable supply, and transparent business practices to our global partners.

We specialize in rock salt, black salt (crystal and powder), fennel seeds, dry mango flakes, dry water chestnut, and buckwheat, meeting diverse international market requirements.

With a production capacity of 40 MT per day and strict quality control systems, we ensure that every shipment meets high standards of purity and safety. We also offer customized packaging to suit buyer specifications.

At BABANAMAK, we focus on building long-term partnerships based on trust, integrity, and mutual growth, guided by our core value of "Shuddhata mein Vishwas."

BLACK SALT

BABANAMAK produces premium-quality Black Salt (Kala Namak) using carefully selected salt crystals and traditional processing methods combined with modern quality control practices. Our black salt is known for its characteristic sulphur aroma, mineral-rich composition, and authentic taste. It is processed under controlled conditions to ensure consistent quality, purity, and hygiene. We do not use artificial colours, additives, or chemicals. Due to its natural properties, slight variations in colour and texture may occur, and the product may gradually develop a pinkish tone over time. This natural change reflects the authenticity of pure black salt.

ROCK SALT

BABANAMAK supplies high-quality Rock Salt (Sendha Namak) sourced from reliable mineral reserves and processed under strict hygienic conditions.

Our rock salt is carefully cleaned, graded, and processed to maintain its natural mineral content, purity, and crystalline structure. It is free from artificial additives and chemical processing, known for its clean taste and high purity, our rock salt is widely used in household cooking, fasting foods, food processing, and industrial applications.

We ensure consistent quality, proper moisture control, and secure packaging to maintain freshness and long shelf life. Bulk and customized packaging options are available for domestic and international markets.

DRY MANGO FLAKES

Our Dry Mango Flakes (Amchur Slices) are produced from carefully selected raw mangoes and dried using hygienic methods to retain natural flavor, color, and acidity.

BABANAMAK's amchur slices are commonly used in spice blends, chutneys, seasoning powders, and traditional recipes. They provide a natural sour taste without the use of artificial additives.

We ensure consistent quality, proper drying, and secure packaging to preserve freshness and extend shelf life. Bulk and customized packing options are available for commercial and export buyers.

FENNEL SEEDS

BABANAMAK offers high-grade Fennel Seeds (Saunf), sourced from reliable farms and processed using advanced cleaning and grading methods to ensure purity, uniform color, and strong natural aroma. Our fennel seeds are widely used in food processing, mouth fresheners, spice blends, and pharmaceutical applications. They are valued for their digestive properties and refreshing taste. We maintain strict quality standards to ensure low impurity levels, good moisture control, and long shelf life. Bulk and customized packaging is available for domestic and export supply.

Buckwheat (Kuttu)

BABANAMAK supplies premium-quality Buckwheat (Kuttu), carefully sourced and processed to ensure high purity, uniform grain size, and excellent nutritional value. Our buckwheat is thoroughly cleaned and graded to remove impurities and maintain consistent quality. Buckwheat is widely used in fasting foods, flour preparations, and health-oriented recipes. It is naturally gluten-free and valued for its high fiber and mineral content. We follow strict hygiene and quality control practices to ensure safety, freshness, and long shelf life. Our buckwheat is available in bulk and customized packaging for domestic and export markets

Dry Water Chestnut (Singhara)

Our Dry Water Chestnut (Singhara) is processed from carefully selected fresh water chestnuts and dried under controlled conditions to preserve natural taste, texture, and nutritional value.

BABANAMAK's Singhara is widely used in fasting foods, flour production, snacks, and traditional recipes. It is known for its purity, good shelf life, and consistent quality.

We ensure thorough cleaning, hygienic drying, and proper packaging to maintain freshness and prevent contamination. Customized packaging options are available as per buyer requirements.

TUKMARIA

BABANAMAK offers premium-quality Tukmaria (Basil Seeds), carefully sourced and processed to ensure high purity, uniform size, and excellent swelling properties. Our basil seeds are thoroughly cleaned and graded to remove impurities and maintain consistent quality. When soaked in water, Tukmaria forms a natural gel coating, making it ideal for use in beverages, desserts, traditional drinks, and health-based food preparations. It is widely used in falooda, sharbat, smoothies, and cooling drinks.

TUKMALANGA

BABANAMAK supplies high-quality Tukmalanga, sourced from reliable growers and processed under hygienic conditions to preserve freshness, purity, and natural nutritional value.

Our seeds are carefully sorted and cleaned to ensure uniform texture, good hydration capacity, and long shelf life. When soaked, they expand and develop a soft gel layer, making them suitable for use in health drinks, desserts, and traditional recipes.

FERRIC ALUM

At BABANAMAK, we supply premium-grade Ferric Alum processed and handled under strict quality control to ensure purity, consistency, and reliable performance. Our product is carefully packed to maintain stability and prevent contamination during storage and transportation.
